MAYOR'S INAUGURAL ADDRESS

Gentlemen of the City Council:—

At this time it becomes my pleasant duty to welcome you all to the Council Board. It is very remarkable that there is but one change in the personnel of the Council from last year, that of Alderman Boyd from St. Lawrence Ward, who was elected by acclamation. I especially welcome Alderman Boyd to our Board and hope that he will have an enjoyable and profitable year. On account of all the other members having had experience in Council work I will be expecting much from them in the way of support and progressive legislation and I am satisfied that I will not be disappointed.

I am now entering my twentieth year in this Council and during that period I have seen considerable changes in its personnel, one of them being a fact that I am the only member present who had membership in my initiatory year.

The care and maintenance of the unemployed on relief is probably the largest problem which we will have to deal with during the year, and will be a continuous strain on our energies and finances during our term of office. It will be one of your duties to-day to appoint a Public Welfare Board to handle this question, as it is a universal problem, affecting every citizen. I am of the opinion that the Board should consist of fewer aldermen and more representative citizens, who have the time and experience to do this work. It will probably be prudent for the Relief Board to appoint a small sub-committee to assist the Relief Officer and his staff in making decisions, and for general administration. The Relief Officer will consult with this sub-committee daily, if necessary. The Board will be the representative of the Government to interpret their Orders in Council and be responsible for their being carried out. The Board should be a Court of Appeal for those who are on relief who are not satisfied with the decisions of the Relief Officer. I am of the opinion that the Board should require a thorough investigation and report in connection with every person on relief with a view of having every one eliminated who is not entitled to receive public support. I am in favour of taking proper care of those who will be on relief in accordance with the Government regulation. The small property owner with a small equity in his estate with his wife and family not earning, not able to pay his taxes, not able to borrow any money on his property, should receive sympathetic and serious consideration at the hands of the Board. I am of the opinion that the administration of relief work, including all interviews with those on relief, and those applying for relief, should be carried on in the office of the Relief Department and leave the Mayor's office free for consultation with the other citizens. This is not to include special cases from the Relief Office. One of our difficulties has been to get work for the unemployed, but we have the report that the construction work on the road from Picadilly to Sharbot Lake by the Government will start at once, and I intend to take up the matter of the water supply, from the City to Collin's Bay Penitentiary, with the Public Utilities Commission with a view of reviving the agreement with the Dominion Government, and obtaining the construction work for Kingston's unemployed.

The cost of defraying the expenses of the Relief work is considerable and adds over $100,000 of a debenture debt to our Corporation each year. It thus becomes a problem which must receive our undivided attention.

We are pleased to note that one of the City's best deals was the purchase of Lake Ontario Park which has been transformed into a beautiful summer park and summer camp. We are also happy to know that the Management reports a net surplus from earnings each year. When this can be done in these days of depression and small revenues from tourists, we will expect greater things in the way of earnings when the brighter day of prosperity has arrived. The Parks Committee is now one of the important ones of the City Council, with the most work and details to take care of, and I hope you will appoint a good strong Committee to take charge of it.

The Committee on Finance and Accounts will bring down the budget some time in March when all details of every kind will be included. It is too early at this time to forecast too much, but it will be our duty to arrange all matters of revenue and expenditure in such a clear and concise manner that it will meet with the approval of the citizens who pay the taxes. The different Committees will be given the smallest amount as an appropriation with which they may carry on with efficiency. It would be bad economy to starve spending Committees in one year which would have to be made up in another year.

The Board of Works was formerly our largest spending Committee, but on account of a large proportion of the work being taken over by the unemployed it does not need as large an appropriation as formerly.

In conclusion, I wish to say that on account of the period in which we are passing the City Council will not be expected to launch any new or expensive propositions, with work for the unemployed excepted. Thus it would seem that our work has developed into a routine or administrative channel, in which economy and close financing will be our watch-word. For many years our City has not experienced the boom days which others have had, but neither has it suffered their reactions, and we are proud when told that our credit and trust stands near or at the top and that there are less arrears of taxes per population in Kingston than any other city in Ontario. I intend to do my best and intreat of you to assist me in maintaining this high standard which we have at present.

I wish you all a happy and prosperous New Year.

CIVIC BUDGET, 1934

Ald. Stewart presented the Civic Budget for 1934 as follows:—

Kingston, Ont., March 16th, 1934.

The Committee on Finance and Accounts in submitting the estimates for the year 1934 beg leave to report and recommend as follows:

The Bonded Debt of the City to 31st December, 1933, is $3,704,789.30, made up as follows:

LIGHT WORKS		$ 303,200.00
SCHOOLS:		
Public	$330,697.25	
High	71,600.00	
Technical	366,803.00	
		769,100.25
LOCAL IMPROVEMENTS:		
Corporation's Portion	$698.369.53	
Owners' Portion	653,019.52	
		1,351,389.05
GENERAL PURPOSES		1,281,100.00
		$3,704,789.30

The amount of the Sinking Fund as on Dec. 31st, 1933, is $1,272,043.92, and of this amount $1,240,297.57 is invested in Government and Municipal Debentures and $31,746.35 is on special deposit in the Bank.

The amount to be levied for the Sinking Fund this year is $185,940.93, the parties specially benefited paying $56,681.42 and the City generally paying $129,259.51.

Since the year 1930, when the tax rate was 41½ mills, the City has issued Debentures to the amount of $1,002,000.00, costing over $90,000.00 annually.

The ratepayers voted authority for $722,000.00 of the above amount, and the balance $280,000.00 was issued under the Unemployment Relief Act of Ontario.

To the above increase must be added $10,000.00, being the annual cost of Relief Administration, making in all an increased expenditure over 1930 of over $100,000.00 per annum, or about 5.14 mills, which has been covered in the following manner:

1 mill from increased assessment.

1½ mills from increased tax rate.

2½ mills from reduction in the appropriation for expenditures of the various City services and the Boards of Education.

The annual cost of Unemployment Relief is now 3.20 mills on the dollar.

The deficit from last year's Budget of $15,191.32, together with the deficit of the Isolation Hospital of $5,528.37, make a total shortage of $20,719.69, or 1.08 mills on the dollar, to be provided for this year.

The sum of $19,500.00, being that part of the surplus earnings of the Sinking Fund over and above a five per cent. reserve established as a provision against market fluctuations and possible losses, has been applied to Revenue, to be used for educational purposes.

Your Committee has been able to provide for the large uncontrollable increases and minimum appropriations for the various spending committees consistent with efficient service by an increase in the tax rate of only 1 mill.

That the amendment No. 7 to Report No. 10, 1934, of the Committee on Finance and Accounts be rescinded, to date from April 1st, 1934, and that the amount of the 10% reduction for January, February and March of this year, be added to Contingencies appropriation.

Your Committee therefore recommends that a rate of 28.92 for general purposes and 14.08 for education purposes, making a total of 43 mills on the dollar, be placed on this year's ordinary assessment, and that a rate of one-half mill on the dollar for the collection and disposal of garbage be imposed on the assessment liable thereto.

Statement of Floating Liabilities as on 31st December, 1933, and Assets Applicable Against Such Liabilities.
